PROFESSIONAL EXCELLENCE

As part of its ongoing quest for performance, THALGO has created the ideal skincare alchemy, combining exclusive and highly sophisticated application techniques and innovative technologies to boost effectiveness.

A unique customer approach, signature welcome, personalised treatments, exclusive massage techniques and visible, lasting results are at the heart of our creations to offer every woman across the world the benefits of **Professional Excellence.**

All our treatment protocols are performed by the expert hands of your THALGO beauty therapist, according to a professional skincare method:

1 PREPARE

Discovery of the Sea is essential to carefully and thoroughly remove make-up. Clear, fresh and freed of all impurities, your skin is ready for our treatments.

This signature welcome massage is an invitation to relax and "let go", improving your skin's receptiveness to the skincare products. Within minutes, you feel soothed and your breathing is more even.

2 REGENERATE

Reviving Marine Mist, THALGO's exclusive beauty secret, delivers the powerful regenerating benefits of marine elements. Combined with THALGO's regenerating Digitopressure massage, your skin's vital functions are re-energised, allowing it to recover strength and balance.

3 CORRECT

THALGO has a targeted, effective and complete response for each skin type. The correcting step focuses on addressing your skin's specific needs with the best-suited manual technique, paired with massage concentrates.

4 OPTIMISE

The last step in the treatment to reinforce and perfect the correcting action: a professional mask, followed by a skincare cream applied at the end of the treatment, combine their benefits for dual effectiveness.

Skin Solutions

Always attentive to women's beauty, the THALGO Research Centre draws its inspiration from the equilibrium of marine species, which face extreme survival conditions (pressure, temperature, radiation, darkness), to identify active molecules with exceptional rebalancing properties.
